Art Unit: 2743

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as anticipated by Sariti (3,079,472).

Sariti discloses in Fig. 1, a speaker unit comprising an elliptical vibrating diaphragm (52 of Fig. 3; the diaphragm is elliptical since the frame 48 is rectangular having rounded corners); a cylindrical voice coil (30); a rectangular frame structure (48); a magnetic circuit having a rectangular top plate (12); a rectangular magnet (33); a rectangular back plate (14) and having an upright pole (28) on the center, wherein the top plate, back plate and the magnet each has a width which is narrower than that of the frame structure in its shorter axis.

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Serial Number: 08/931,165

Art Unit: 2743

4.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sariti (3,079,472).

Sariti fails to disclose that the loudspeaker is installed on either side of a television display

2

on a television set. Loudspeaker mounting on either side of a television display is well known in

the art. Therefore, it would have been obvious to one of ordinary skill in the art at the time the

invention was made to mount or use the loudspeaker of Sariti in any electronic devices including

on either side of a television.

5. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Sinh Tran whose telephone number is (703) 305-4811.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the Group receptionist whose telephone number is (703) 305-3900.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C. 20231

or faxed to:

Serial Number: 08/931,165

Art Unit: 2743

(703) 308-9051, (for formal communications intended for entry)

Or:

(703) 305-9508, (for informal or draft communications, please label "PROPOSED" or "DRAFT")

Hand-delivered responses should be brought to Crystal Park II, 2121 Crystal Drive, Arlington. VA., Sixth Floor (Receptionist).
